

## Art & Community Permission Form

.....

# We are going on location!

Throughout the term, students will have the opportunity to go to various locations for our various activities that we will be completing within the community.

The location will always be a destination that fulfills the requirements of the current project and students will be required to drive to that location.

Students will NOT be allowed to go to other locations that are not related to the Art &

Community assignment, such as a drive through, going back home, or etc. If students are found to be going off assignment site to areas not connected to the project discipline action will be taken. We will usually just caravan to the location in which we are going. It is a privilege as this is a junior and senior only class. If your student is unable to drive themselves, projects can be adaptable to a walking location near the school for successful completion.

I would allow my student to have.....(Please check your choice(s) for your child)

Permission to drive and have other student(s) ride with.

Permission to drive but without other students in the vehicle.

Permission to ride with another student that has permission to drive, but will not be driving.

Permission to ride with Mrs. Meyer, but will not be driving.

Student Signature: \_\_\_\_\_ Parent Signature: \_\_\_\_\_ Date: \_\_\_\_\_
